Notes to users

- 1) The quantitative information in this document has been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB), unless otherwise indicated, and should be read in conjunction with the Report to Shareholders for all quarters of 2021. This supplementary financial information (SFI) is unaudited and should be read in conjunction with the 2021 Annual Report (including audited consolidated financial statements and accompanying management's discussion and analysis). Additional financial information is also available through our quarterly investor presentations as well as the quarterly conference call webcast. All amounts are in millions of Canadians dollars, unless otherwise indicated.
- 2) Information related to regulatory capital as well as Pillar 3 and risk disclosures required by the Enhanced Disclosure Task Force (EDTF) is provided in the document entitled *Supplementary Regulatory Capital and Pillar 3 Disclosure*, which is available on the Bank's website at nbc.ca.

3) Non-GAAP Financial Measures and Other Financial Measures

The Bank uses non-GAAP financial measures that do not have standardized meanings under GAAP and that therefore may not be comparable to similar measures used by other companies. Presenting non-GAAP financial measures helps readers to better understand how management analyzes results, shows the impacts of specified items on the results of the reported periods, and allows readers to assess results without the specified items if they consider such items not to be reflective of the underlying performance of the Bank's operations. The Bank excludes from its results certain specified items that are inherently unpredictable. In addition, like many other financial institutions, the Bank uses the taxable equivalent basis to calculate net interest income, non-interest income, and income taxes. This calculation method consists of grossing up certain tax-exempt income (particularly dividends) by the income tax that would have been otherwise payable. An equivalent amount is added to income taxes. This adjustment is necessary in order to perform a uniform comparison of the return on different assets regardless of their tax treatment. For additional information on non-GAAP financial measures, see pages 12 and 13 of this document and the Financial Reporting Method section on pages 18 to 21 of the Management's Discussion and Analysis (MD&A) in the 2021 Annual Report and on pages 2 to 5 of the Fourth Quarter 2021 Press Release, which are available on the Bank's website at nbc.ca or the SEDAR website at sedar.com.

Other Financial Measures

For additional information on the composition of non-GAAP ratios and supplementary financial measures, as well as on capital management measures, and segment measures, see the Financial Reporting Method and Glossary sections on pages 18 to 21 and 123 to 126, respectively, of the MD&A in the *2021 Annual Report*, which is available on the Bank's website at nbc.ca or the SEDAR website at sedar.com.

4) For the comparative figures, certain amounts have been revised from those previously reported in order to be consistent with the presentation adopted by the Bank for the year beginning November 1, 2020. On November 1, 2020, the Bank amended the classification of certain Consolidated Statement of Income amounts to better reflect the nature of the revenues reported in the Wealth Management segment. The reclassifications were made retrospectively among the Non-interest income items and had no impact on the total revenues and on Net income.

⁽²⁾ During the quarter ended January 31, 2021, the Bank acquired the entire remaining non-controlling interest in the Credigy Ltd. subsidiary following the decision of the non-controlling shareholders to exercise their put options for an amount of \$300 million according to an agreement reached in 2013. Following this transaction, Credigy Ltd. became a wholly owned subsidiary of the Bank.

(3) During the quarter ended October 31, 2020, the Bank, through its subsidiary Credigy Ltd., recorded a foreign currency translation loss of \$24 million taking into account income taxes and \$26 million taking into account income taxes and non-controlling interests) following the sale

of two subsidiaries in Brazil. This loss was reported in the Other heading of segment results.
